(Medical  
detective  
Agency)

user uploads  
pdfs or describe hist

Agent 0:  
outreach / collection

Has PDF?

yes

Extract  
clinic  
names

no

figure something  
out based on  
the history described

Generate  
email drafts

for the visits that the user did  
but don't have the record in his  
hands so the email is to ask  
for past records.

user provide  
missing documents

long visualiser

Orchestrator - long graph

↓  
Decide which agent  
run next

Agent 1:  
Extractor
